Serbia | Open to Remote & Relocation

Frontend Engineer with 5+ years of commercial experience.

Specialized in high-load, real-time and AI-powered interfaces. Strong focus on performance, clean architecture and excellent UX.

EXPERIENCE

Senior Frontend Engineer, STATEIS – Remote

April 2026 – Present · Real-time media platform

- Owned frontend architecture of a real-time platform using React, Next.js and WebSockets
- Achieved <200ms sync across multiple rooms
- Reduced data processing time by 40% through refactoring and optimization
- Independently designed and delivered features to production

Frontend Developer, Everypixel – Remote

April 2025 – March 2026 · AI content generation platform

- Built frontend for AI image/video/motion generation platform with 9 providers
- Implemented HTTP Streaming and real-time progress tracking
- Reduced load time by 40% and form abandonment by 22%
- Built reusable component library

Frontend Developer, Primsocbank – Remote

December 2022 – April 2025 · High-load fintech

- Developed complex UIs and forms for a banking product
- Led migration Redux → Redux Toolkit + RTK Query, reducing API errors by 28%
- Refactored large forms (~2500 → ~300 LOC)
- Participated in code review and architectural decisions

Frontend Developer, T-Systems International – Hybrid

November 2020 – September 2022 · Enterprise solutions

- Built complex enterprise forms, filters and reusable UI components
- Reduced load time by 35% through performance optimization

SKILLS

Core · React · Next.js · TypeScript · JavaScript (ES6+)

State & API · Redux Toolkit · RTK Query · React Query · REST API

Real-time · WebSockets · HTTP Streaming · LLM Streaming

UI · Tailwind · CSS Modules · SCSS · styled-components

Tools · Vite · Webpack · Git · Storybook · Docker

AI · Claude · Cursor · Codex

LANGUAGES

Russian – Native

English – B2 (Upper-Intermediate)

EDUCATION

Saint Petersburg State University of Aerospace and Instrumentation

B.Sc. in Engineering · 2015–2019
